Follow the following simple steps and we guarantee that you will start earning money already in several hours. Are you ready to earn your first bitcoin (BTC)?

- ✓ This is the opportunity you've been waiting for.
- ✓ NO EXPERIENCE required.
- ✓ This changes absolutely everything...

## **STEP #1** – Create Blockchain Bitcoin Wallet

Blockchain.info is a bitcoin wallet and block explorer service. Launched in August 2011, the service provides data on recent transactions, mined blocks in the bitcoin blockchain, charts on the bitcoin economy, and statistics and resources for developers. Blockchain is probably the most popular wallet today.

The wallet is extremely intuitive and easy to use.

The Blockchain.info website can be used as a mobile wallet thanks to its Android app. With the Android app, you can access all this while you're on the move.

The app opens up asking you either to create a new account or to pair with your existing wallet. Registering on the website is better as there are a few pieces of data to keep a record of. Pairing with the website involves opening your account details on the blockchain.info website, and clicking on the devices section, and there you'll find an option to display a QR code. This can then be scanned by the app on your phone, then the pairing is complete.

Once paired, you are shown a summary of your wallet, including balance and a list of transactions. Besides the balance is a small icon of a QR code. Tapping this reveals a larger QR and your wallet address. Other bitcoin users can scan this to send you money.
